

Kentucky **Farm Service Agency**

**2003
Report**

February 2004

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative

means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten

Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

Who is the Farm Service Agency?

The Farm Service Agency (FSA) of the U.S. Department of Agriculture (USDA) ensures the well-being of American agriculture, the environment and the American public through efficient and equitable administration of farm commodity programs; farm ownership, operating and emergency loans; conservation and environmental programs; emergency and disaster assistance; domestic and international food assistance and international export credit programs.

These programs provide a safety net to help farmers produce an adequate food supply, maintain viable operations, compete for export sales of commodities in the world marketplace, and contribute to the year-round availability of a variety of low-cost, safe, and nutritious foods.

FSA was set up when USDA was reorganized in 1994, incorporating programs from several agencies. Though its name has changed over the years, the Agency's relationship with farmers goes back to the 1930s.

At that time, Congress set up a unique system under which Federal farm programs are administered locally. Farmers who are eligible to participate in these programs elect a three- to five-person county committee, which reviews county office operations and makes decisions on how to apply the programs. After more than 60 years, it remains a cornerstone of FSA's efforts to preserve and promote American agriculture.

How do We Deliver Programs?

In Kentucky, FSA has 92 field offices, servicing 120 counties. FSA's programs are delivered through U.S. Department of Agriculture (USDA) Service Centers. The Kentucky FSA State Office is located in Lexington.

Message from State Executive Director

Stabilizing farm income, helping farmers conserve land and water resources, providing credit to farmers and helping farm operations recover from the effects of disaster are the missions of the U.S. Department of Agriculture's Farm Service Agency (FSA).

***Jeffery S. Hall
State Executive Director***

Though its name has changed over the years, the Agency's relationship with farmers goes back to the 1930s. At that time, Congress set up a unique system to administer Federal farm programs at the local level. Farmers who are eligible to participate in FSA programs elect a three- to five-person county committee, which reviews county office operations and makes decisions on how to apply the programs. The grassroots approach gives farmers a much needed say in how Federal actions affect their communities and their individual operations. After several decades, it remains a cornerstone of FSA's efforts to preserve and promote American agriculture.

Agriculture is changing at a rather dramatic pace. While most of the programs the Farm Service Agency delivers have not changed significantly, the way we manage and deliver those programs will be overhauled over the next year. Adopting new technology will make us better equipped to deliver programs more quickly and administer them more accurately.

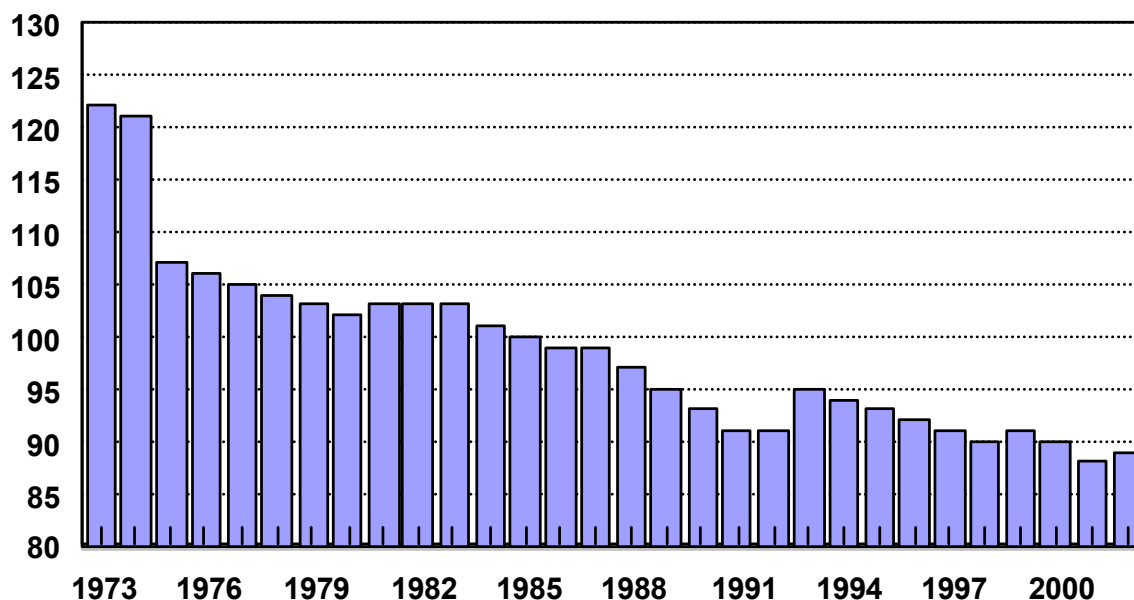

This report is designed to provide a more complete picture of the Farm Service Agency in Kentucky. Our USDA Service Center employees carry the responsibility for delivering the programs and benefits highlighted in this report. For most farmers, the local USDA Service Center is their only point of contact for Farm Service Agency programs. It is the people in our Service Centers and the members of our County Committees that build our strong tradition.

As we look back at what was accomplished there is a sense of satisfaction for a job well done, but we focus most on the year ahead. We will work daily to continue our commitment to Kentucky's farmers.

A handwritten signature in dark ink that reads "Jeffery S. Hall". The signature is written in a cursive, flowing style.

GOAL

Assist agricultural producers and landowners in achieving a high level of stewardship of soil, water, air, and wildlife resources on America's farms and ranches while protecting the human and natural environment.

Branch Chief: Robert Finch
Program Specialist: Joyce Hobbs

Conservation Reserve Program

First established by the Congress in 1985, the Conservation Reserve Program (CRP) has become the nation's premier program for protecting fragile natural resources and enhancing the environment. A voluntary program, CRP offers annual rental payments for 10 to 15 years and cost-share assistance to eligible producers that establish long-term resource-conserving covers on eligible land to reduce soil erosion, improve water quality, and enhance wildlife habitat.

Signup 26

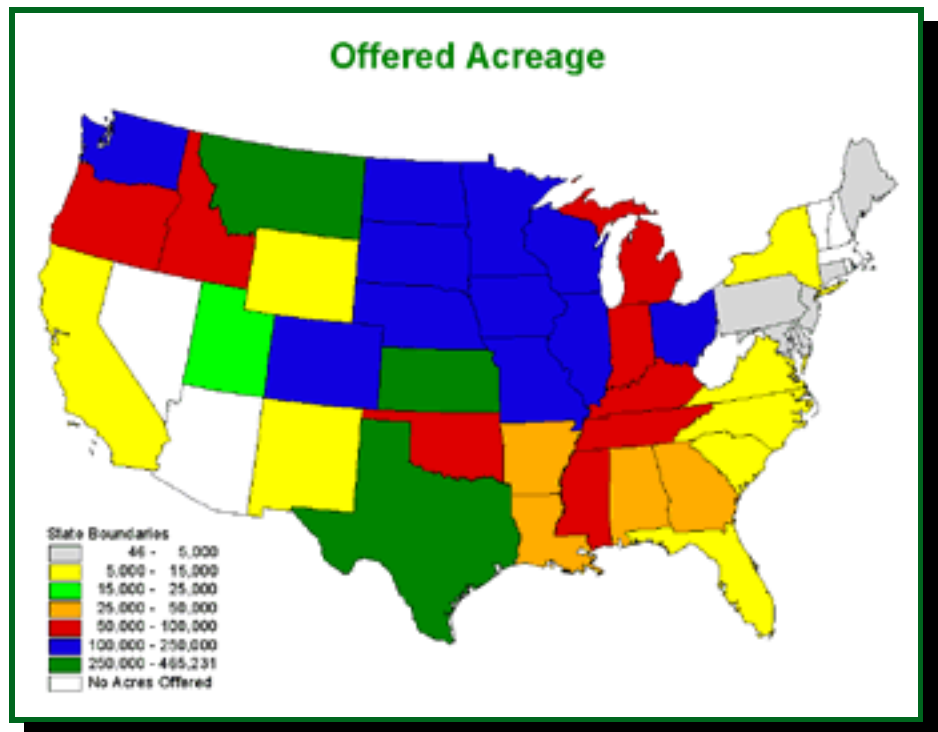

Signup 26 was held from May 5, 2003 through June 13, 2003. Offered acreage was evaluated and ranked using the Environmental Benefits Index (EBI) based on the environmental benefits expected to accrue if the land is enrolled in the CRP. The EBI factors were:

- 1) wildlife habitat benefits;
- 2) water quality benefits from reduced erosion, runoff, and leaching;
- 3) on-farm benefits of reduced erosion;
- 4) enduring benefits;
- 5) air quality benefits from reduced wind erosion; and
- 6) cost.

In Kentucky, 1,487 offers covering 52,153.5 acres were submitted under Signup 26 at an average rental of \$75.02.

Land Eligibility	Total Offers With	Total Acres With

Conservation Reserve Program, *Continued*

Continuous CRP Signup

Continuous signup provides an effective, ongoing means to enroll certain practices such as filter strips, riparian buffers, grass waterways, shelterbelts, field windbreaks, shallow water areas for wildlife, and wetland restoration on a continuous basis and to receive additional financial incentives.

Acreage Enrolled in CRP as of October 1, 2003

Conservation Reserve Enhancement Program (CREP)

CREP provides a framework for FSA to work closely with State, local governments and private groups to address agriculture-related environmental issues.

Financial incentives encourage farmers to enroll targeted lands to establish practices such as riparian buffers, grass filter strips, wetlands, wildlife habitat, and other environmental and wildlife enhancement practices.

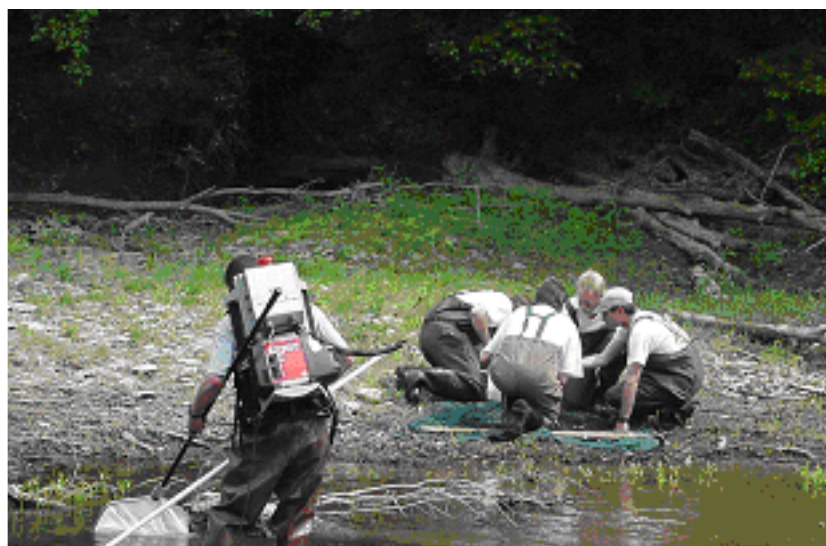

On August 29, 2001, the U.S. Department of Agriculture (USDA) and the Commonwealth of Kentucky agreed to implement a Conservation Reserve Enhancement Program (CREP) on a section of the Green River to restore up to 100,000 acres. The Nature Conservancy of Kentucky is also a primary contributor, offering permanent easements to land owners in addition to CREP contracts. The Kentucky Department of Fish and Wildlife Resources provides wildlife biologists to assist landowners and promote their participation in the CREP.

Native Grass Stand

The Green River is the most biologically diverse and rich branch of the Ohio River system. The CREP project area includes 917,197 acres in the counties of Adair, Barren, Edmonson, Green, Hart, Metcalfe, Russell, and Taylor.

In Fiscal Year 2003, the Green River CREP had 107 contracts approved, totaling 2,806.1 acres. At the end of the Fiscal Year, there were an additional 60 contracts totaling 1,275.3 acres in the process of being approved.

FARM BILL 2002

Branch Chief: Robert Simpson
Program Specialists: Troy Myers
Shayla Watson
Debbie Beehn
Amelia McNeely

2003 Direct and Counter-Cyclical Program

The Direct and Counter-cyclical Payment Program (DCP) provides payments to eligible producers on farms enrolled for the 2002 through 2007 crop years. The 2002 Farm Bill replaced production flexibility contract (PFC) payments with direct payments.

Direct payments for each crop year equals 85 percent of the farm's base acreage *times* the farm's direct payment yield *times* the direct payment rate. Direct payment rates are:

- Corn \$0.28 per bushel
- Gr. Sorghum \$0.35 per bushel
- Soybeans \$0.44 per bushel
- Wheat \$0.52 per bushel

Counter-cyclical payments for a commodity are only issued if the effective price for a commodity is below the target price for the commodity. Target prices for 2003 were:

- Corn \$2.60 per bushel
- Gr. Sorghum \$2.54 per bushel
- Soybeans \$5.80 per bushel
- Wheat \$3.86 per bushel

KENTUCKY

Disaster Programs

Crop Disaster Program (CDP)

Branch Chief: Bob Finch

Program Specialist: Bridget Hoover

The 2001/2002 Crop Disaster Program (CDP) reimbursed producers for qualifying losses to agricultural commodities (other than sugar cane, sugar beets or tobacco) due to damaging weather or related conditions. The damages must be in excess of 35 percent for either the 2001 or 2002 crop for loss of production or 20 percent for quality losses.

CDP covers all crops as follows:

- Insured Crops -- Crops insured by either catastrophic (CAT) or buy-up (coverage of 50/100 or greater) crop insurance.
- Uninsured Crops -- Crops for which crop insurance was available but not purchased.
- Noninsurable Crops -- Crops for which crop insurance was not available.

Payments were issued for losses in excess of 35 percent at:

- 50 percent of the established price to producers who had crop insurance or noninsured crop disaster assistance program (NAP) coverage;
- 50 percent of the established price to producers for which crop insurance or NAP was not available; and
- 45 percent of the established price to producers who did not obtain crop insurance or NAP.

As of January 1, 2004, Kentucky producers had received \$10,289,489 under CDP for 2001 and 2002 losses. Signup ended January 30, 2004.

Noninsured Assistance Program (NAP)

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to eligible producers affected by natural disasters. This federally funded program covers noninsurable crop losses and planting prevented by disasters. An eligible producer is a landlord, tenant, or sharecropper who shares in the risk of producing an eligible crop.

Eligible crops include commercial crops and other agricultural commodities produced for food (including livestock feed) or fiber for which the catastrophic level of crop insurance is unavailable. Also eligible for NAP coverage are controlled environmental crops (mushrooms and floricultural, speciality crops (honey and maple sap), and value loss crops (aquaculture, Christmas trees, ginseng, ornamental nursery, and turfgrass sod).

NAP funds disbursed in Kentucky for FY 2003: \$275,068.

Disaster Programs, Continued

Livestock Assistance Program (LAP)

Branch Chief: Robert Simpson

Program Specialist: Shayla Watson

The Agricultural Assistance Act of 2003 authorized the Secretary to use \$250 million of CCC funds to establish a Livestock Assistance Program (LAP) for producers in eligible counties. An eligible county is a primary county included in the geographic area covered by a qualifying Secretarial or Presidential disaster declaration made after January 1, 2001, or a county for which a request for such declaration was submitted not later than February 20, 2003 and subsequently approved. In addition to meeting the county eligibility requirements, a county must have suffered a 40 percent or greater grazing loss for at least 3 consecutive months as a result of drought, hot weather, disease, insect infestation, flood, fire, hurricane, earthquake, severe storm, or other natural disaster during calendar years 2001 or 2002.

As of January 1, 2004, payments of \$172,647 had been made under LAP to producers in 18 Kentucky counties. LAP payments to a producer were reduced by the amount of assistance received by that producer under previous Livestock Compensation Programs (LCP).

Kentucky producers received \$36,079,292 under LCP-1 and LCP-2.

Signup for the LAP began on August 6, 2003 and ran through November 21, 2003.

* K E N T U C K Y *

GOAL

Provide farm income support to eligible producers, cooperatives, and associations to help improve the economic stability and viability of the agricultural sector and to ensure the production of an adequate and reasonably priced supply of food and fiber.

Branch Chief: Robert Simpson

Program Specialists: Javier Garza
Troy Myers
Stan Todd
Shayla Watson

Loan Deficiency Payments (LDP)

- **\$904,217.32 was paid for 2003 crops.**
- LDPs for most commodities have not been paid because commodity market prices have exceeded county posted price.
- Average LDP Payments were:
 - Corn: \$0.04
 - Oats: \$0.14
 - Sorghum \$0.03
 - Wool: \$0.22
 - Mohair: \$2.08
 - Pelts: \$0.18
 - Rice Rough: \$2.68

Commodity Loans

2003 Average Loan Rates are:

- Wheat: \$2.535
- Corn: \$2.11
- Gr. Sorghum \$3.692
- Soybeans \$5.158

As of January 14, 2004, Kentucky has made 536 commodity loans totaling \$36,184,850.14.

Loan Deficiency Payments

Loan Deficiency Payments (LDPs) are payments made to producers who are eligible to obtain a loan, but agree to forgo obtaining a loan for a quantity of a commodity in exchange for a payment. Producers who have a Production Flexibility Contract (PFC) and satisfy all eligibility requirements are eligible to obtain LDPs on wheat, corn, grain sorghum, barley, oats, upland cotton and rice. Producers may obtain LDPs on any production of oilseeds whether or not they have entered into a PFC contract.

For a commodity to be eligible for an LDP, the producer must have beneficial interest in the commodity, in addition to meeting all eligibility requirements. LDP provisions are active when the alternative repayment rate for the commodity at a given location is less than the base loan rate at the same location.

2003 LDP Summary Report

Commodity	Unit of Measure	Count	Quantity	Amount
Corn	Bu.	1,786	19,677,452.60	\$876,796.12
Oats	Bu.	26	62,803.39	\$8,836.27

Rice Rough	Cwt.	1	2,989.79	\$8,012.64
TOTAL		1,894		\$904,217.32

Commodity Loans

The Farm Service Agency, on behalf of the Commodity Credit Corporation (CCC), administers nonrecourse marketing assistance loans for wheat, corn, grain sorghum, barley, oats, soybeans, minor oil seeds, rice, upland cotton, and ELS cotton. The purpose of the loans is to provide eligible producers with interim financing on their eligible production and facilitate the orderly distribution of loan-eligible commodities throughout the year.

2003 Loan Summary

Commodity	Count	Loan Quantity	Amount
Wheat	47	1,132,055.00	\$2,847,760.55
Corn	336	10,733,386.24	\$22,728,281.05
Barley	2	20,000.00	\$32,400.00
Soybeans	148	2,036,079.56	\$10,557,300.31
Gr. Sorghum	2	5,091.00	\$18,899.07
Wool	1	498.00	\$209.16
Total	536		\$36,184,850.14

Price Support, Continued

Milk Income Loss Contract Program

The Milk Income Loss Contract (MILC) Program was authorized by the 2002 Farm Bill to financially compensate dairy producers when domestic milk prices fall below a specified level. Eligible dairy producers are those who produced milk in any state and marketed milk commercially beginning December 1, 2001 through September 30, 2005. Dairy producers may receive payments on milk marketed from December 1, 2001 through the last day of the month preceding the month the operation's MILC contract is submitted. Transition payments are paid in a lump sum.

Payments to Kentucky producers in 2003 under MILC were \$32,006,160.

Farm Storage Facility Loan Program

Under the Commodity Credit Corporation (CCC) Charter Act, USDA may make loans to producers to build or upgrade farm storage and handling facilities. Storage structures for commercial purposes (the storage of grain for others, whether paid or unpaid) are ineligible for loans, as are portable handling or drying equipment and portable or permanent weigh scales. The maximum term of the loan is 7 years.

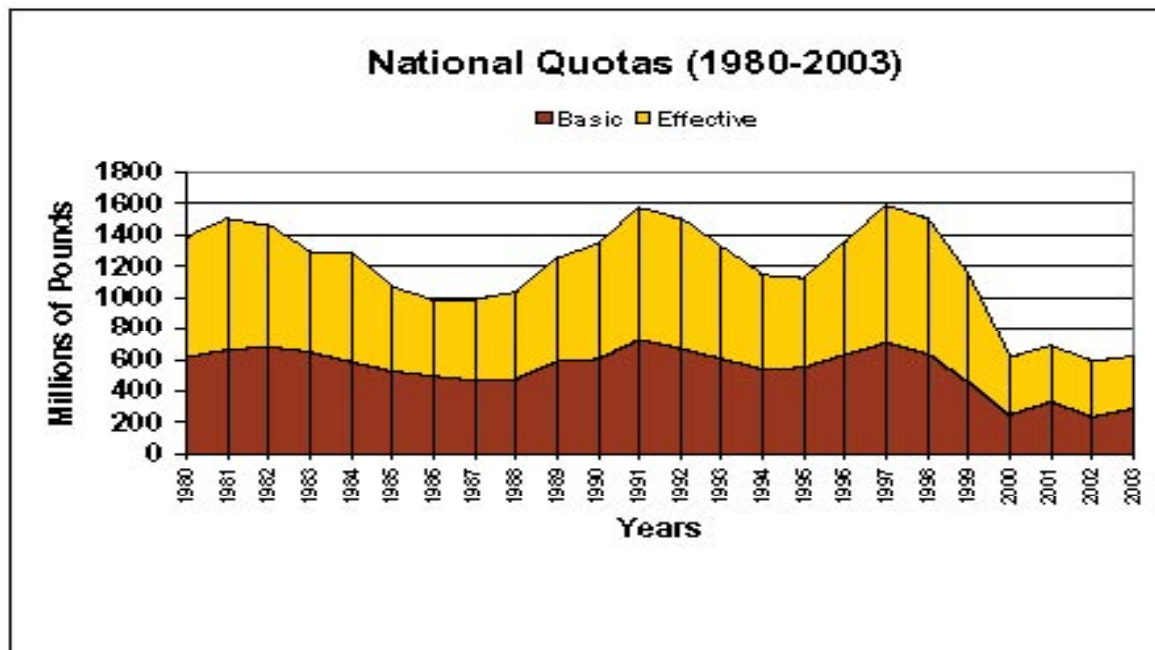

Loan Disbursements during FY 2003:

Loan Count	18
Obligated Amount	\$638,524.15

Burley Tobacco

The Agricultural Adjustment Act of 1938, as amended, authorized marketing quotas and price support for Burley Tobacco. Producers voting in February 2001 referendum approved the poundage program for the 2001-2003 crops. Price support is available to qualified growers through the Burley Tobacco Growers Cooperative Association under contractual agreements with USDA's Commodity Credit Corporation (CCC).

Farm Loan Programs

GOAL

Assist eligible individuals and families in becoming successful farmers.

Branch Chief: Butch Dunsmore

Program Specialists: Mitch Whittle
John Hoskins
Jacky Ott
Mike Hoyt

Direct Loans are made and serviced by FSA officials, who provide borrowers with supervision and credit counseling. Farm ownership, operating and emergency loans are the main types of loans available under the Direct program. FSA also finances youth projects under the Direct program and sets aside a percentage of funds for loans to minority, female and beginning farmer applicants.

Outstanding Direct Loans

	Number	Portfolio
Farm Ownership Loans	2,201	\$139,319,219
Operating Loans	4,682	\$168,793,584
Emergency Loans	949	\$ 42,553,953
Economic Emergency Loans	222	\$ 14,871,059
Soil and Water Loans	215	\$ 3,037,678
TOTAL	8,269	\$368,485,493

* K E N T U C K Y *

Farm Loan Programs, Continued

Guaranteed Loans are made by conventional agricultural lenders for up to 95 percent of the loan amount. All loans must meet certain qualifying criteria. Farmers interested in Guaranteed loans must apply to a conventional lender, which then arranges for the guarantee. FSA will guarantee loans for both Farm Ownership and Operating purposes. Like the Direct loan program, a percentage of Guaranteed loan funds is targeted to minority, female and beginning farmer applicants.

Outstanding Guaranteed Loans

	Number	Portfolio
Farm Ownership Loans	826	\$124,226,958
Operating Loans	951	\$ 70,792,541
Economic Emergency Loans	1	\$ 55,000
TOTAL	1,778	\$195,074,499

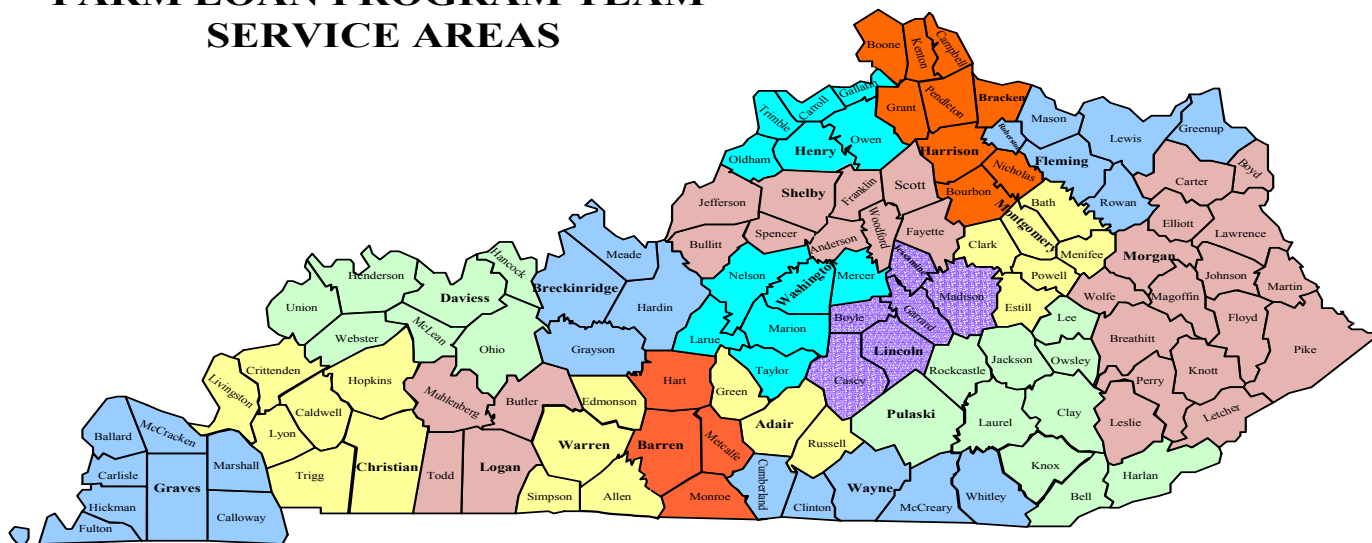

Total Outstanding Loans

	Number	Portfolio
DIRECT Loans	8,269	\$368,485,493
GUARANTEED Loans	1,778	\$195,074,499
TOTAL	10,047	\$563,559,992

Farm Loan Programs, Continued

Farm Loan Programs staff in Kentucky is organized into teams. The field office staff is currently being reorganized into 18 teams. The teams will be headquartered in a centralized office with servicing for several counties. The Team

FARM LOAN PROGRAM TEAM SERVICE AREAS

Headquarters and service areas are listed in the table below. The realignment should be completed by September 2004. FSA staff in each of our 92 field offices is trained to assist customers making inquiries about Farm Loan programs.

Team Headquarters	Service Area Counties
Adair County	Adair, Green and Russell
Barren County	Barren, Hart, Metcalfe and Monroe
Breckinridge County	Breckinridge, Grayson, Hardin and Meade
Christian County	Caldwell, Christian, Crittenden, Hopkins, Livingston, Lyon and Trigg
Daviess County	Daviess, Hancock, Henderson, McLean, Ohio, Union and Webster
Fleming County	Fleming, Greenup, Lewis, Mason, Robertosn and Rowan
Graves County	Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, Marshall and McCracken
Harrison County	Boone, Bourbon, Bracken, Campbell, Grant, Harrison, Kenton, Nicholas and Pendleton
Henry County	Carroll, Gallatin, Henry, Oldham, Owen and Trimble
Lincoln County	Boyle, Casey, Garrard, Jessamine, Lincoln and Madison
Logan County	Butler, Logan, Muhlenberg, and Todd
Montgomery County	Bath, Clark, Estill, Meniffee, Montgomery and Powell
Morgan County	Boyd, Breathitt, Carter, Elliott, Floyd, Johnson, Knott, Lawrence, Leslie, Letcher, Magoffin, Martin, Morgan, Perry, Pike, and Wolfe
Pulaski County	Bell, Clay, Harlan, Knox, Jackson, Laurel, Lee, Owsley, Pulaski, and Rockcastle
Shelby County	Anderson, Bullitt, Fayette, Franklin, Jefferson, Scott, Shelby, Spencer, Woodford
Warren County	Allen, Edmonson, Simpson and Warren
Wayne County	Clinton, Cumberland, McCreary, Wayne and Whitley
Washington County	Larue, Marion, Mercer, Nelson, Taylor and Washington

Geographic Information Systems (GIS)

A photograph showing a person from behind, sitting at a desk and looking at a computer monitor. The monitor displays a map application with a satellite view of a landscape. The person is wearing a light-colored shirt. To the left of the monitor is a printer. The desk is dark wood.

GIS Integrates All the Parts

The diagram illustrates the integration of various data layers into a 3D model of the real world. At the top, a globe icon is next to the title. Below it, a stack of six colored, semi-transparent layers is shown, each representing a different data type. To the right of these layers is a list of categories with horizontal lines pointing to the corresponding layers. At the bottom, a 3D cutaway model of a landscape (with trees, a river, and buildings) is shown, with a line pointing to it from the 'REAL WORLD' label.

- Soils

REAL WORLD

USDA

To date, 115 of the 120 counties have been digitized and returned to the local FSA county office.

The map displays several land parcels with the following details:

- Farm 211 Tract 400 Field 5 FSA Acres 3.2** (bottom right)
- Farm 211 Tract 400 Field 5 FSA Acres 4.5** (middle right)
- Farm 211 Tract 400 Field 6 FSA Acres 14.2** (middle right)
- Farm 211 Tract 400 Field 6 FSA Acres 11.7** (middle right)
- Farm 211 Tract 400 Field 6 FSA Acres 12.5** (top right)
- Farm 132 Tract 640 Field 0 FSA Acres 0.0** (top left)
- Farm 750 Tract 2910 Field 4 FSA Acres 20.3** (left)
- Farm 750 Tract 2910 Field 5 FSA Acres 10.7** (bottom left)
- Farm 750 Tract 2910 Field 1 FSA Acres 1** (bottom center)

Geographic Information Systems (GIS), Continued

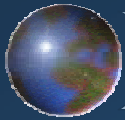

Global Positioning Systems (GPS) is an accompanying technology that can be integrated with GIS for even greater analysis. GPS technology, controlled by the U.S. Department of Defense, is a navigational system consisting of a constellation of 24 satellites which rotate the Earth twice each day, in a very precise orbit. The satellites with

USDA employee using GPS to determine acreage.

the constellation transmit signals to Earth; these signals carry information about the location and distance of the satellite to Earth. GPS handheld units use signals received from satellites and ground control stations on Earth to calculate the user's exact location. The user's position is then displayed as an electronic map on the unit's handheld screen. FSA has a GPS unit in each USDA service center. FSA is integrating GIS layers and GPS information to increase the efficiency, accuracy, and timeliness of FSA program administration. GPS data layers, orthophotography, soil layers, and many other data layers can be placed atop one another inside one GIS project. GIS and GPS will help FSA store and utilize information on field boundaries and land and attributes for each field.

All FSA offices in Kentucky are being trained on GIS and GPS technology.

Geographic Information Systems (GIS), Continued

National Agriculture Imagery Program (NAIP)

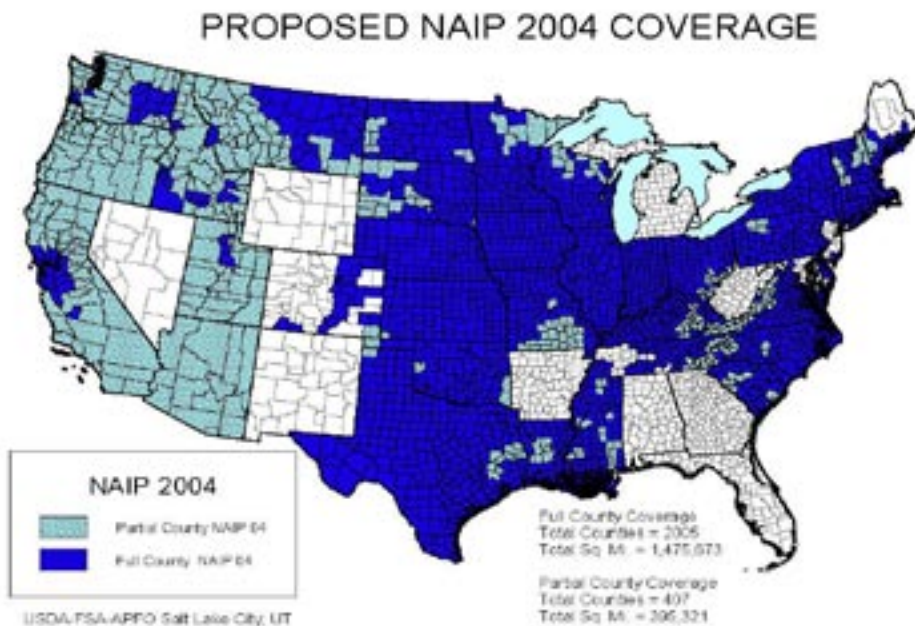

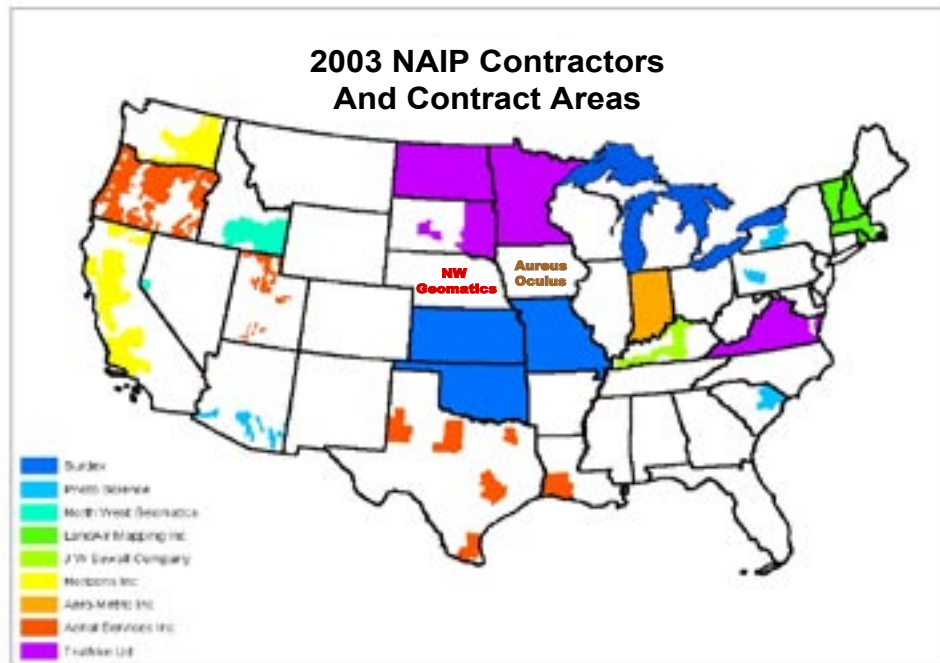

NAIP consolidates USDA's aerial photography, digital imagery, and digital orthoimagery requirements into a national acquisition.

- NAIP Imagery replaces 35mm slides with high quality geo-referenced digital imagery.

- Replaces hard copy maps and planimeters with GIS for compliance measurement.

- In 2003, Kentucky received 2-meter geo-referenced digital imagery in 39 counties.

Compressed digital imagery on CD-Rom, in a county format, is delivered within one month of acquisition.

Outreach

FSA is in a unique position to support the agricultural producers in the Commonwealth. We continue to work through local employees, farmer elected committees, partners, stakeholders, state and local community-based organizations, under served groups (including women, minorities, and limited resource clients), state and local governments, other federal agencies and local communities to provide service to our customers.

Outreach Working Groups

- **Women in Agriculture:** FSA employees participate in leadership roles at the state and local levels to promote participation in events sponsored by Kentucky Women in Agriculture. FSA's objective is to inform women involved in agriculture about FSA programs.

Partnerships

Local FSA offices continue to partner with County Ag Councils, Cooperative Extension Service, Farm Bureau, Cattlemen's Association, RC&D Councils, Young Farmers organizations, local Banks, and many more.

FSA is actively seeking new partners in the areas of aquaculture, fruits and vegetables, horticulture and forage production. As agriculture diversifies in Kentucky, our potential customer base is growing. Through commodity conferences and trade shows FSA has connected with many new growers.

Over 46,000 students from all 50 States and Puerto Rico attended the Career Show at the 75th FFA National Convention. The Convention was in Louisville on October 29 through November 1, 2003.

FSA's computer game, Agventure, was featured in the exhibit. Kentucky FSA employees staffed the booth along with Ohio and Indiana. FSA Administrator James Little and USDA Deputy Secretary Jim Moseley attended the convention.

Pictured: Donita Murray, Public Affairs, and Jeffery Hall, Kentucky SED, visiting with students.

Small-Limited Resource Farmer Conference

FSA was a sponsor of the Small-Limited Resource Farmer Conference on September 16 and 17, 2003 at Kentucky State University in Frankfort. Sixty-five limited-resource farmers attended the two-day conference. Other sponsors were the University of Kentucky College of Agriculture, Kentucky Department of Agriculture, and the following USDA agencies: Natural Resources Conservation Service, Rural Development and Risk Management Agency.

National FFA Convention
